

**INCLUDES:**

Flask  
Silicone Stopper and Straws  
Ozone Destruct System

Stand  
Destruct Tubing 3 ft

## Basic Ozone Water Bubbler/Humidifier Combo

1. Fill the bubbler with at least as much water as is needed to cover the white diffuser (see diagram).

2. Place the silicone stopper with straws attached into the bubbler.

3. Attach tubing from the ozone out of your ozone generator to the water bubbler straw that goes all the way into the bubbler.

4. Attach one end of another piece of silicone tubing to the other straw of the water bubbler. Attach the other end to the ozone destruct system as shown.

5. Make sure the OFF on the destruct is turned toward the side port to filter the ozone into the destruct system until you're ready to use it.

6. Attach an accessory to the other arm of the destruct system. When you're ready to use it, turn the OFF on the destruct toward the destruct to send ozone to the accessory.

Attach accessory
