patented transcranial-intranasal design

VIELIGHT NEURO 4

The Vielight Neuro 4 concentrates NIR energy towards vital brain networks.

The Vielight Neuro is featured in the **most published clinical research** in the field of brain photobiomodulation.

The Vielight Neuro provisions for different needs via the **Alpha** and **Gamma** modes.

Gamma (40Hz)

- Focus
- Creativity
- Performance

Alpha (10Hz)

- Relaxation
- Sleep
- General brain health

Duo

- 10Hz or 40Hz frequency modes

FEATURES

- Industry-leading energy density
- Flexible fit for comfort
- Adjustability to target brain areas
- Next-generation Vie-LED modules
- Patented intranasal technology

NEW Cerebellum module for motor coordination

 100-150 mW/cm² 810nm NIR energy

 Improved adjustability and comfort

 Optimized LEDs for penetration
